

## **Certificate of Analysis**

| Product Name       | LW-N9           |           |               |                    |
|--------------------|-----------------|-----------|---------------|--------------------|
|                    |                 |           |               |                    |
|                    |                 |           |               |                    |
| Properties         | Test Method     | Unit      | Specification | Typical values     |
| Drop melting point | GB/T 28724-2012 | ${\tt C}$ | 95-100        | 98                 |
| Congealing Point   | ASTM D 938      | ${\tt C}$ | 83-87         | 86                 |
| Penetration @25℃   | GB/T 4985       | 0.1mm     | 8-12          | 8                  |
| Oil content        | GB/T 3554       | %         | <b>≤3</b>     | 2.2                |
| Product shape      | -               | -         | -             | Pellet/Microsphere |

## **Packaging**

LW-N9 is supplied in 25kg per bag.

## Note

To obtain the best performance from product, we recommend use within 5 years from sample date on the Certificate of Analysis. Product should be stored under standard warehousing conditions, at least in a clean dry place, in its original packing at a temperature not exceeding 35 °C.
